GUANGZHOU SUBSIDIARY

The subsidiary is located at Huayue Building, No. 423 Xicha Road, Baiyun District, Guangzhou, with developed transportation and convenient environment.

PROFESSIONAL TEAM

After years of development, we have a complete service team. Including design team, engineer team, business team, production team.

HONOR AND CERTIFICATION

In addition to implementing 180 9001-2015 quality management system certification, we have also obtained ISO9001, SGS, CE certification.

EXPANDABLE CONTAINER HOUSE

Compared with traditional buildings, container house have shorter construction time and lower construction costs, and can be factory-produced, which greatly improves construction efficiency. One of the biggest advantages of container house is that they can be recycled, which not only saves the generation of construction waste, but also makes full use of existing resources. In addition, the container house is also mobile and detachable, and its location and use can be changed at any time according to needs, and it can be applied to temporary accommodation, urban offices, hotels and tourism, etc.

In the future, container house will continue to be an important part of green buildings. It can not only reduce resource consumption and environmental pollution, but also help to improve energy efficiency and reduce carbon emissions. With the popularization of the concept of sustainable development and the enhancement of people's awareness of environmental protection, the application prospects of container house will be broader.
